DIARY NOTES

25X1A

ADD/A

15 May 1953

25X1A

25X1A 1. Attended a meeting with Mr. Garrison, [REDACTED] Of-
25X1A fice of the CAO/DDP, Colonels McHenry and Aiken of G-4, and others to discuss
25X1A SCOP 53 (Supply Procedure). No definite conclusions were reached. [REDACTED]
[REDACTED] felt strongly that there was no reason why past arrangements could not con-
25X1A tinue and that SCOP 53 would allow him inadequate flexibility. G-4 representa-
tives would not agree, at this point, to change the directive. However, everyone
recognized that it would take some time to implement the provisions of this docu-
25X1A ment and agreed to make no change in present procedures until Mr. Garrison had
had an opportunity to study the matter carefully on the spot. I am sure that it
was clear [REDACTED] that this requirement was not of our own making but
was forced upon us by the Army. However, we, no doubt, were in error in not con-
sulting the field prior to issuing this instruction. (The Deputy Director (Plans)
did concur, however.)

25X1A

2. Approved of General Services putting "No Smoking" signs on our busses.

25X1A

3. Lunched with [REDACTED] and talked to him about his forthcoming as-
25X1A signment to the Paramilitary Staff. Suggested that he telephone either Colonel
[REDACTED] and make an appointment to obtain more detailed informa-
tion.

25X1A

4. [REDACTED] reports that OSI desires to have [REDACTED] assigned
to that Office when he reports for duty with CIA.

25X1A

5. Colonel Edwards reports that his office is working with [REDACTED] on a
case involving [REDACTED] who is, among other things, apparently short \$1,500
in his accounts. He will brief Mr. Wolf more fully on Monday.

25X1A

6. [REDACTED] reported that it is a fact that [REDACTED] is
short a lead-in cable and that General Services is trying, with the Logistics Of-
fice, to find the necessary cable so that it can be installed as early as pos-
sible. He will give me a further report as soon as he can.
